The online version of the original article was published as: Acta Acustica, 6, 3, <https://doi.org/10.1051/aacus/2021057>

The authors wish to correct Figure 7, an error appeared in the above manuscript: Figures 7 and 8 were the same. The real Figure 7 is presented below.

**Figure 7.** Reading disturbance according to the (BoE) factor only for the group of noise sensitive participants. Labels correspond to median values for each distribution. The two groups a and b, representing significant different distributions, are extracted from the Nemenyi post-hoc analysis.
