Accepted 22 June 2023

Corrigendum for: Acta Acustica 2023, 7, 29 – https://doi.org/10.1051/aacus/2023020

Regarding the article *F. Lluis, N. Meyer-Kahlen, V. Chatziioannou, A. Hofmann: Direction specific ambisonics source separation with end-to-end deep learning. Acta Acustica 7 (2023) 29*, published on June 16th, 2023, the authors wish to correct Equation (2): a sqrt(2) is missing for the cases $m < 0$ and $m > 0$.

Equation (2) should read:

$$Y_n^m(\theta) = N_nP_n^m(\sin \theta) \begin{cases} \sqrt{2} \sin(|m|\phi) & m < 0 \\ 1 & m = 0 \\ \sqrt{2} \cos(m\phi) & m > 0 \end{cases}$$
