

## **Topical Issue: "Active Noise and Vibration Control"**

### **Topical Issue Guest Editors:**

- Professor Jordan Cheer, Institute of Sound and Vibration Research, University of Southampton, UK
- Prof Paolo Gardonio, Università degli studi di Udine - DPIA, Italy

### **Provisional timeline:**

- Article submission deadline: 30 April 2024
- First round of review: 30 July 2024
- First papers published: 30 November 2024
- 

### **Scope:**

A topical issue titled "Active Noise and Vibration Control" will be published in Acta Acustica, the Journal of the European Acoustics Association, in 2024. A limited number of papers presented at Forum Acusticum 2023, the 10<sup>th</sup> Convention of the European Acoustics Association, will be invited by the Editors of the topical issue to submit a paper, based on the impact and novelty of their presentation and conference papers. Authors will be invited to submit a full-length Scientific Article or a Review Article, and will be particularly encouraged to make the data or code that support the findings of this study publicly available.

### **Submission:**

For the submission visit the Acta Acustica website <https://acta-acustica.edpsciences.org/>.

### **Article Processing Charge:**

The article processing charge for Acta Acustica is €1000, but you may be eligible for financial support. Details can be found at <https://acta-acustica.edpsciences.org/author-information/are-you-entitled-to-a-special-rate>.

### **Guidelines:**

- The submission needs to be significantly extended from the original conference paper, with additional material included and an extended literature review, in order to reach typically 8-12 pages long (final typeset length);
- The extended conference paper needs to be a strong research article with a broader scope and interest than the conference presentation;
- The authors should indicate that their contribution is an improvement, or extension to their previously published conference paper. The conference paper should be cited in the reference list and throughout the research article;
- The normal peer review process of the journal will apply.
- Please submit your articles to the Special Issue via the submission system of Acta Acustica at: <https://www.editorialmanager.com/aacus/> before the 30th of April 2024.
